

2016 WNV SURVEILLANCE SUMMARY

- Total reported symptomatic WNV cases: **2**
- West Nile virus-related deaths: **0**
- Asymptomatic presumptive viremic blood donors†: **0**
- Total reported positive horses: **4**
- Other species: **0**
- Counties reporting positive mosquitoes: **9**
- Total reported positive counties: **12**

WNV- Positive Surveillance Findings, by County of Residence (or Collection), and Event Date—Idaho, 2016

| Counties | Humans: Fever (Onset Date) | Humans: Neuroinvasive (Onset Date) | Horses/other mammals (Diagnosis Date) laboratory- confirmed only | Asymptomatic Blood Donors† | Positive Mosquito Pools, by first positive collection date †, additional positive collection dates listed | Positive birds |
|-----------------|-------------------------------------|--|--|-------------------------------|---|-------------------|
| Ada | | | | | 7/26/2016, 8/4, 8/17, 8/25 | |
| Adams | | | | | | |
| Bannock | | | | | 7/29/2016, 8/3, 8/4 | |
| Bear Lake | | | | | | |

| Totals: 12 Total counties with | 2 Humans reported with WN | 0 Humans reported with WN | 4 Animals reported with WNV | 0 Asymptomatic blood donors reported by the | 9 Counties where +mosquito pools were | 0 Positive birds |

| reported WNV activity | fever | neuroinvasive disease | infections | Red Cross | detected by mosquito abatement districts or PHDs | |
|--|-------|--------------------------|------------|-----------|--|--|
| <p>The data presented are (1) <i>provisional</i>, (2) <i>only</i> confirmed or probable symptomatic infections, (3) asymptomatic presumptive viremic blood donors identified by the American Red Cross and, (4) <i>only</i> Idaho residents.</p> <p>† The American Red Cross routinely screens all donated blood for a variety of infectious agents, including WNV. All donated blood determined positive for WNV is discarded.</p> <p>Every attempt is made to assure the accuracy of the information presented on the map and in the table. Numbers and dates presented here may change, based on completed investigations.</p> <p>†Positive mosquito pools are noted by collection date; testing takes several days before results are available. Most mosquito abatement districts do not cover the entire county.
